Dear Parent or Guardian;

Your son, daughter or a student in your care, is in the “*Challenge and Change in Society*” grade 12 sociology course this winter / spring and I want to begin the semester with a win-win focus. Understanding that I will be delivering a course curriculum to your son or daughter, I would like to know specifically, how can I create a win for you as a parent? What are your hopes for your teen as we move through the semester?

A win for me would be to open up the channel of communication so that I can share the good things that they are doing and to possibly discuss areas of improvement. I am looking forward to working with both you and your teen. I have provided a course outline that lists the plan and expectations for the semester. Please look it over and sign it this first week.

Please also take a moment to fill in the information and permission form attached. Thanks very much for your time, and thank you in advance for your support. You can connect with me at by phone at 705-887-1672, or call or text at 705-886-0243.

Respectfully

Ann-Marie Carruth
